

Mechanical Comprehension

Sam Sample

Report Generated: 10-09-2020

Introduction

This report is confidential and is intended solely for the person responsible for assessing Sam Sample, who completed the Mechanical Comprehension on 10/09/2020.

The contents of this report are likely to be valid for 18 to 24 months.

Interpreting Scores

Scores on Mechanical Comprehension are calculated by comparing an individual's score with a large group of people (norm group) who have also completed the same tests. Thus, the results are shaped by a meaningful comparison with others. These are then expressed as 'percentiles' and you can use the below scoring key to benchmark Sam's results:

3,000 General Population

Analysis

This test assesses a candidate's ability to understand and apply mechanical concepts to solve problems. These skills will be apparent when:

- Understanding mechanical and physical concepts
- Applying specific mechanical principles to novel situations in order to identify a solution
- Learning how to apply engineering principles
